

Run, View, and Print Reports

Scope

All SFA FMS Responsibilities have the ability to run reports in SFA FMS. However, the specific reports that the user can run and the data sets that the user can use will vary depending on the responsibility that is selected at the time.

There are a number of standard reports that are applicable to CFO Accounting Division users available in SFA FMS AP, AR, and GL. Also, the Oracle Discoverer tool provides additional ad hoc querying and analytical capabilities. Training on the use of the Discoverer tool is available through the Oracle Corporation.

Activity Preface

SFA FMS Users can view and print reports accessible to their selected responsibility on an as needed basis. The procedure steps below describe running the Trial Balance Detail Report using the SFA CFO General Ledger Super User responsibility. However, the steps to run any report are the same for the other responsibilities, though the fields that need to be entered on the Parameters window will vary depending on the report type selected.

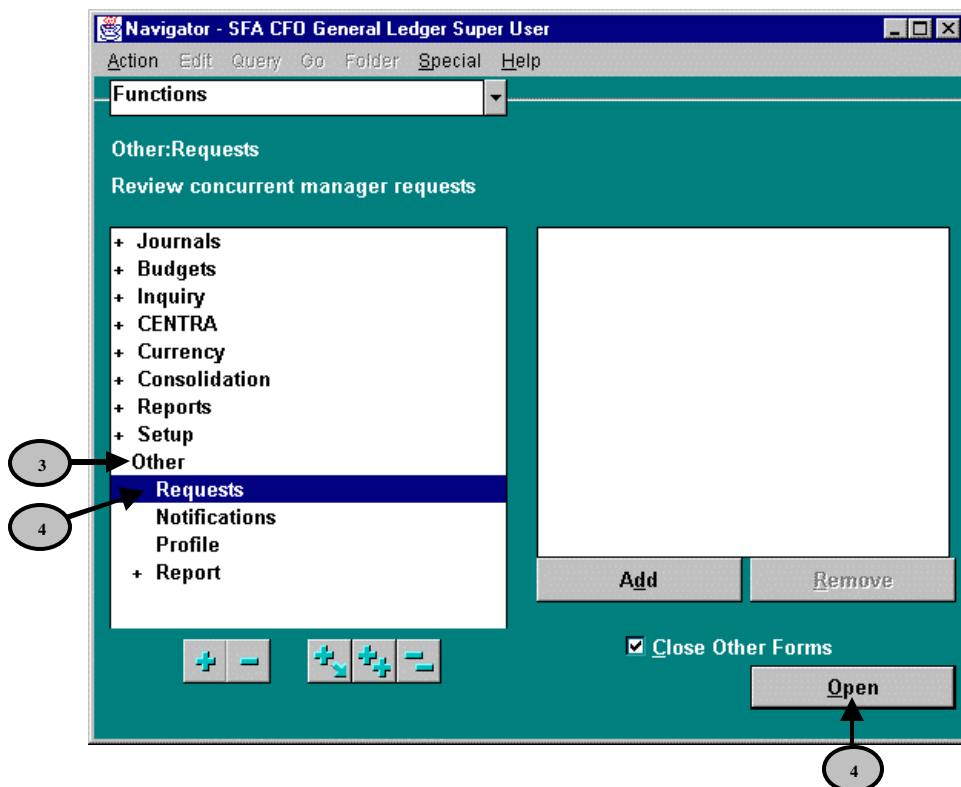

Run, View, and Print Reports-All Users

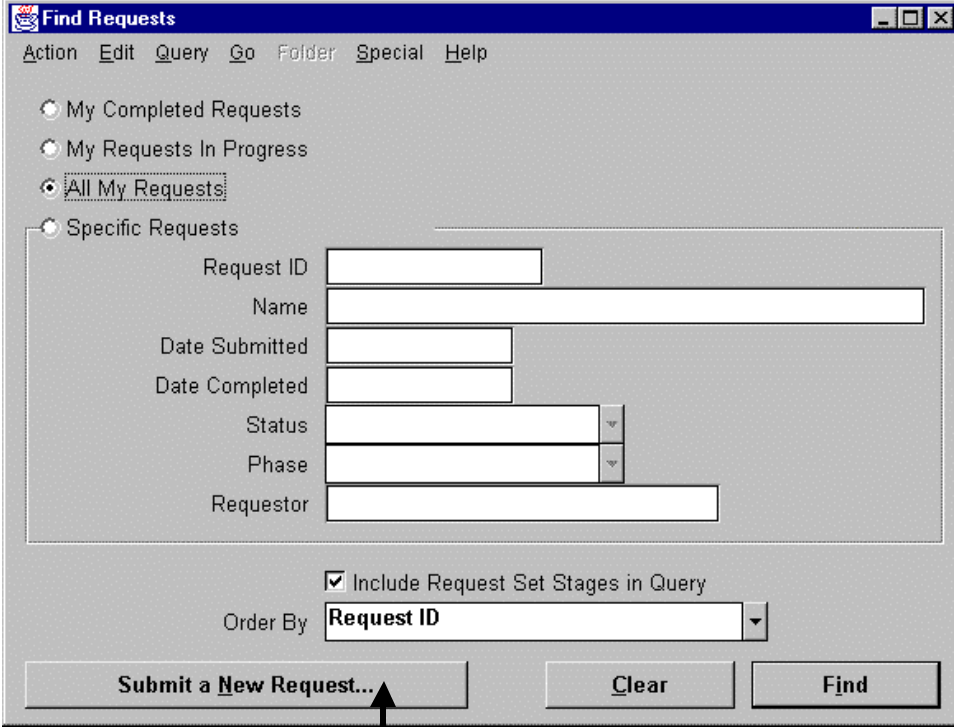

1. Select **Switch Responsibility** from the **Special** menu. The “Responsibilities” window appears.

2. Click desired responsibility and click the **OK** button. The “Navigator – SFA CFO General Ledger Super User” window appears.

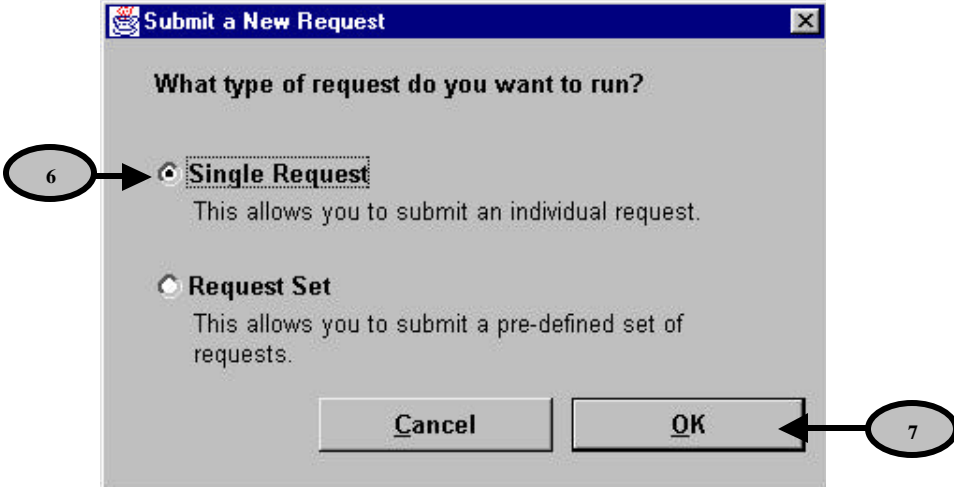

3. Double-click **Other**. The Other sub-menu appears.
4. Click **Requests** and click the **Open** button. The “Find Request” window appears.

The "Find Requests" dialog box has a menu bar with "Action", "Edit", "Query", "Go", "Folder", "Special", and "Help". Below the menu bar are four radio buttons: "My Completed Requests", "My Requests In Progress", "All My Requests" (which is selected), and "Specific Requests". The "Specific Requests" section contains several input fields: "Request ID", "Name", "Date Submitted", "Date Completed", "Status" (with a dropdown arrow), "Phase" (with a dropdown arrow), and "Requestor". Below these fields is a checkbox labeled "Include Request Set Stages in Query" which is checked. Below the checkbox is an "Order By" dropdown menu currently set to "Request ID". At the bottom of the dialog are three buttons: "Submit a New Request..." (circled with a 5 and an arrow pointing to it), "Clear", and "Find".

5. Click the **Submit a New Request** button. The “Submit a New Request” window appears.

The "Submit a New Request" dialog box has a title bar with a close button. The main text asks "What type of request do you want to run?". There are two radio buttons: "Single Request" (which is selected and circled with a 6, with an arrow pointing to it) and "Request Set". Below "Single Request" is the text "This allows you to submit an individual request." Below "Request Set" is the text "This allows you to submit a pre-defined set of requests." At the bottom are two buttons: "Cancel" and "OK" (circled with a 7 and an arrow pointing to it).

6. Click the **Single-Request** field.
7. Click the **OK** button. The “Submit Request” window appears.

8

8. Click the **List of Values** icon on the “Submit Request” window to select from a list of valid values for the **Request Name** field. The “Reports” window appears.

9

9. Click the report name and click the **OK** button. The “Parameters” window appears.
10. **FYI:** The parameters differ for every report type. The following example shows the parameters for the Trail Balance-Detail report.

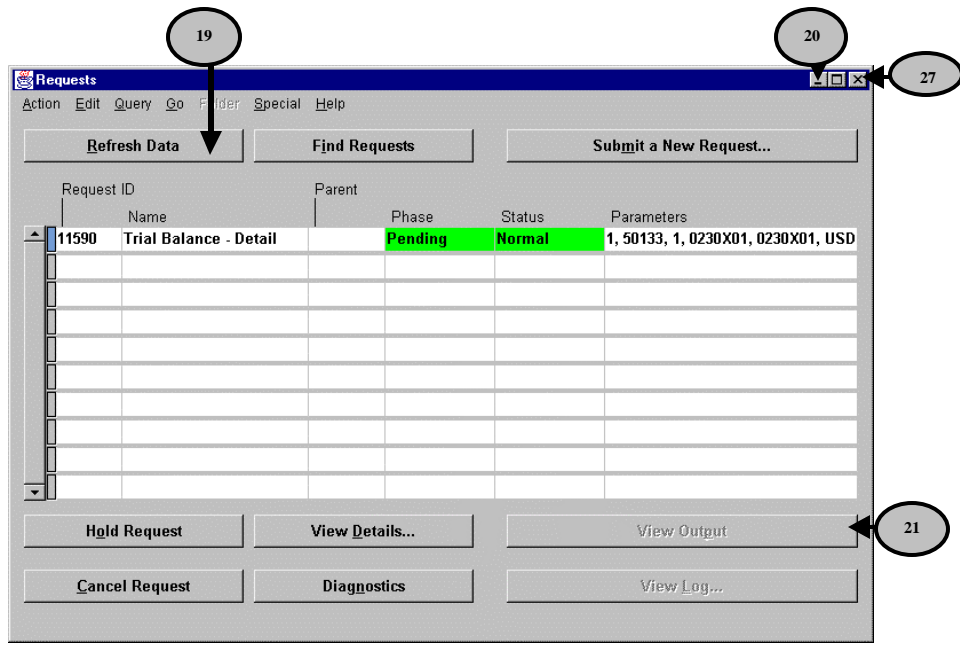

11. Tab to the **Pagebreak Segment** field and click the **List of Values** icon on the Parameters window to select from a list of valid values for that field.
12. Tab to the **Pagebreak Segment Low** field and click the **List of Values** icon on the Parameters window to select from a list of valid values for that field. The “SFA COA” window appears.

13. Tab to the **Fund Low** field and type the fund number or click the **List of Values** icon on the “SFA COA” window to select from a list of valid values.

14. Click the **OK** button. The “Parameters” window appears with the **Pagebreak Segment Low** field and the **Pagebreak Segment High** field populated.
15. Tab to the **Currency** field and click the **List of Values** icon on the Parameters window to select from a list of valid values for that field.
16. Tab to the **Period** field and click the **List of Values** icon on the Parameters window to select from a list of valid values for that field.
17. Tab to the **Amount Type** field and click the **List of Values** icon on the Parameters window to select from a list of valid values for that field.
18. Click the **OK** button. The “Submit Request” window appears.

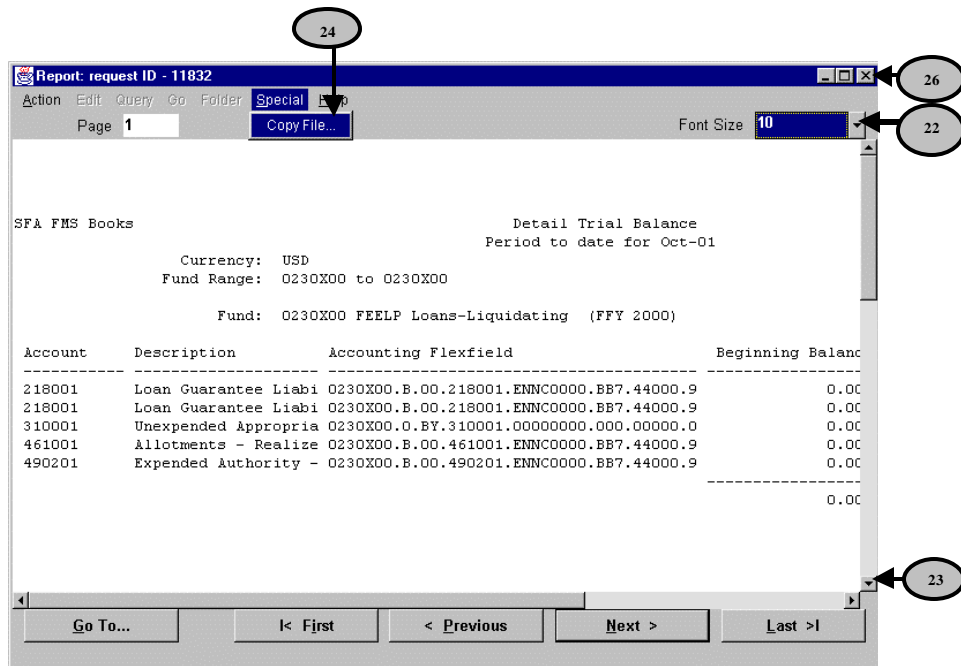

19. Click the **Submit Request** button. The “Requests” window appears.

20. Click the **Refresh Data** button to update the information on this window. This window displays the **Phase** and **Status** of your report request. The Phases are: Pending, Running, and Completed. The Statuses are: Normal and Error. You may need to click the **Refresh Data** button multiple times until the request is completed.

-OR-

21. While the data is being refreshed, you can minimize the “Requests” window and open the “Navigator” window to work on other tasks. In order to check on the progress of your requests, maximize the “Requests” window to view the Phase and Status.
22. Once the Request is completed, click the **View Output** button to view the Trial Balance Detail Report. The “Report: request ID - #” window appears.

23. Click the **Font Size** field to change the font size of the report for easier viewing.
24. Use the **scroll bar** to move through the report.
25. To print the report, select **Copy File** from the **Special** menu. The report is copied into your Internet browser and can be printed using the print command of the internet browser.
26. Once the report prints, close the internet browser window displaying the report.
27. Click the **X** button to close the "Report: Request ID - #" window. The "Requests" window appears.
28. Click the **X** button to close the "Requests" window. The "Navigator" window appears.

End of activity.
